

MB120 with SmartGuide™

- **SmartGuide™ get started quickly**

- This revolutionary feature automatically analyzes a sample and creates a method, thereby removing the guesswork from the initial setup
- With or without a reference moisture value (from the oven method or other reliable source)
- Possibility to save the created method directly to the MB's memory

- **User Management**

- MB120 provides operational control and aids compliance by restricting access so that unauthorized users may use the device but not change settings

- **Halogen heating**

- MB is capable of producing fast and accurate results due to features such as a halogen heating system, customizable shut-off criteria and four built-in drying profiles

- **Method and results memory**

- MB120 allows for storing up to 100 methods and 1000 measurement results. Stored results can be exported and methods can be shared across multiple devices
