High Resolution Digital Crane Scale

1. Safety Guide

For good performance and precise measurement, be careful with daily operation and maintenance.

- i** Do NOT overload scale. This will damage loadcell and void warranty.
- i** Do NOT leave load hung on the scale for long. This will decrease scale's accuracy and shorten loadcell's life.
- i** Inspect shackle and hook before using. Check clips, pins and screws regularly.
- i** Check battery frequently. When scale runs out of power, charge battery with its dedicated charger.
- i** Rotate load rather than scale if needed.
- i** Do NOT use scale under thunder or rain.
- i** Hang scale on shelf in dry and well-ventilated room. Do NOT place scale on the ground directly.
- i** Do NOT attempt to repair scale yourself. Contact your local representative.

2. Features

This scale is a combination of sound and proven mechanical design, with today's most advanced electronics to provide a superb feature set. It is versatile, reliable, accurate and easy to operate.

- ☑ Superb Quality.** Strictly in accordance with OIML R76, Chinese GB/T11883-2002 national standards, and European CE directives.
- ☑ Great Safety.** Aluminum-casting case, high firm hook and

High Resolution Digital Crane Scale

shackle, dedicated weighing loadcell for safety installation.

- ☑ **Strong Reliability.** Cutting-edge technology, quality integrated circuit for high performance and long time stability.
- ☑ **Broad Applicability.** Popular and applicable in storage, textile, metallurgy industry, and so forth.
- ☑ **Easy to Use.** Ultra-red remote controlling design. Easy to operate on the scale or in distance.
- ☑ **Complete Function.** Resolution switch, unit conversion, auto power-off, battery inspection, etc.

3. Specifications

| | |
|----------------|---|
| Accuracy Class | Chinese GB/T 11883-2002 Class III Equivalent to OIML R76 |
| Tare Range | 100% F.S. |
| Zero Range | 4% F.S. |
| Stable Time | ≤10sec |
| Overload | 100% F.S. + 9e |
| Safety Load | 150% F.S. |
| Ultimate Load | 400% F.S. |
| Battery | 6V/4.0Ah lead acid rechargeable battery. |
| Charger | 100~220VAC 50/60Hz input 7.2VDC/1000mA output |
| Display | 35mm (1.4inch) LED module |
| Op. Temp. | -10°C ~ +40°C |
| Op. Humidity | 20°C ≤90% |

High Resolution Digital Crane Scale

4. Capacity

| Modal | Max. Cap. | Min. Cap. | Res. | Division |
|---------|-----------|-----------|-------|----------|
| OCS-1-T | 1,000kg | 10kg | 0.5kg | 2,000 |
| OCS-2-T | 2,000kg | 20kg | 1kg | 2,000 |
| OCS-3-T | 3,000kg | 20kg | 1kg | 3,000 |
| OCS-5-T | 5,000kg | 40kg | 2kg | 2,500 |

5. Dimension & Weight

High Resolution Digital Crane Scale

| Modal | A | B | C | L | N.W. |
|---------|------|-------|------|-------|--------|
| OCS-1-T | 68mm | 112mm | 40mm | 420mm | 11.0kg |
| OCS-2-T | 68mm | 112mm | 40mm | 420mm | 11.0kg |
| OCS-3-T | 68mm | 112mm | 40mm | 420mm | 11.0kg |
| OCS-5-T | 68mm | 112mm | 45mm | 450mm | 12.5kg |

6. Display & Keys

Scale Keys

| Key | Name | Function |
|---|--------|---|
|  | On/Off | Press 1s to power on/off scale. Return to weighing mode. |
|  | Zero | Manual Zero. Increase flashing digit. |
|  | Tare | Tare in/out. Right scroll flashing digit. |
|  | Hold | Lock/unlock reading. Confirm. |

Remote Keys

| Key | Name | Function |
|---|------|---|
|  | Zero | Same as  . |
|  | Tare | Same as  . |
|  | Hold | Same as  . |
|  | Acc. | Accumulate weight. Decrease flashing digit. |

High Resolution Digital Crane Scale

| | | |
|---|------|---|
|  | Del. | Delete last weight. Clear all weight. Left scroll flashing digit. |
|  | F1 | View. Input decimal point. |
|  | F2 | Unit switch. |
|  | Off | Press 1s to power off. Return to weighing mode. |
|  | 2nd | 2nd function. |

Indicators

| LED | Name | Note |
|-------------|--------|----------------------------|
| STB. | Stable | lit when weight is stable |
| ZERO | Zero | lit when weight is at zero |
| TARE | Tared | lit when scale is tared |
| HOLD | Hold | lit when scale is locked |
| lb | lb | lit when unit is lb |
| kg | kg | lit when unit is kg |

Message

| Message | Stand for | Note |
|--------------|-----------|-------------------------|
| ----- | | detect weight |
| ? | | in Idle Mode |
| Setup | SETUP | User Setup Menu |
| Bat?? | BATtery | battery life percentage |
| P0000 | Password | in Password Mode |
| end | END | save and exit |
| off | OFF | power off |

High Resolution Digital Crane Scale

| | | |
|--------------|------------|--------------------|
| /over | OVERload | overloading |
| /2nd/ | 2ND | 2nd function |
| /err/ | ERRor | invalid operation |
| /acc/ | ACCumulate | accumulate weight |
| /del/ | DElete | delete last weight |
| /Clr/ | CLear | delete all weight |

7. Operations

Power On/Off

- ✓ Press  for 1s to power-on scale. Scale perform initialization and power-on test, ***** shows twice, then capacity |5000 shows, battery life percentage bat90 shows, weight detection --- shows and then auto zero.
- ↪ For information about Auto-Zero, refer to Scale Configuration in Technical Manual.
- ✓ Press  or  for 1s to power-off scale. Battery life percentage bat90 shows, off message |off| shows, and then cut off power.

Zero

- ✓ Press  or  to zero. **ZERO** light on.
- ⓘ If load is in motion, or tared, or out of Manual-Zero Range, |err| shows.
- ↪ For information about Manual-Zero Range, refer to Scale Configuration in Technical Manual.

Tare In/Out

- ✓ In gross mode, press  or  to tare in. **TARE** light on.
- ⓘ If load is in motion, or negative, or out of Tare Range, |err|

High Resolution Digital Crane Scale

shows.

-  Tare will reduce the apparent overload range of scale. For example, if a 5000*2kg scale has a 1000kg container as its tare, the scale will overload at a new weight of 4018kg (5000 – 1000 + additional 9 divisions).

- In net mode, press  or  to tare out. **TARE** light off.

Lock/unlock

- Press  or  to lock screen. **HOLD** light on.
- Press  or  to unlock screen. **HOLD** light off.

Accumulate

- Press  to accumulate current weight.
-  |acc| shows, indicating weight is accumulated. Scale uses displayed weight, so gross or net weight is added into the same accumulator.
-  If load is in motion, or negative, or does not return to zero before, |err| shows.

View

- Press  to enter View mode.
-  Display flashes accumulated weight.
- Press  or  to view high 5-digit or low 5-digit.
- Press  or  to exit View mode.

Delete Last Weight

- Press  to delete last accumulated weight.
-  |del| shows, indicating last accumulated weight is deleted.
Delete function only deletes the last weight.
-  If last accumulated weight has been deleted, |err| shows.

High Resolution Digital Crane Scale

Clear All Weight

- ✓ Press  first and then press  to clear all accumulated weight.
-  |clr| shows, indicating all weight is cleared.

Unit Switch

- ✓ Press  to switch unit in between kg, lb, and User Unit.
-  When unit is kg, **kg** LED light on. When unit is lb, **lb** LED light on. When unit is User unit, **kg** and **lb** LED all light off.
-  For more information about User Unit, refer to Scale Configuration in Technical Manual.

8. User Setup

- ✓ Press  first and then press  or  to enter User Setup menu. **setup** shows.

Auto-Off Timing

- ✓ Press  or  to enter Auto-Off Timing. **off??** shows.
- ✓ Press  or  and  to change timing value.
-  Auto-Off Timing can be set to: 0(disabled), 5(5min), 10(10min), 15(15min), 30(30min), 60(60min). It is disabled by default.
-  Auto-Off function maximizes scale's battery life against people's carelessness not to power off scale when it's not working. Auto-Off starts countdown timer when there's no action or load is stable. Any key pressing or motion in load restarts countdown timer.

High Resolution Digital Crane Scale

Display Brightness

- ✓ Press  or  to enter Display Brightness. `br||?` shows.
- ✓ Press  or  and  to change brightness value.
- ↪ Display Brightness can be set to: 1(dim), 2(normal), 3(bright).
-  Dim LED brightness saves battery power dramatically.

Idle Mode Timing

- ✓ Press  or  to enter Idle Mode Timing. `idl??` shows.
- ✓ Press  or  and  to change timing value.
- ↪ Idle Mode Timing can be set to: 0(disabled), 5(5sec), 10(10sec), 15(15sec), 30(30sec), 60 (60sec). It is 30sec by default.
-  To maximize battery life, scale automatically enters Idle Mode, when there's no action or the load is stable. In Idle Mode, scale works in low-power consumption status. Any key pressing or motion in load wakes up scale from Idle Mode.
- ✓ Press  or  to exit User Setup.

9. Battery Maintenance

To maximize battery life, please note the following battery maintenance guide.

- ❶ This scale is powered by a 6V4.0Ah rechargeable lead-acid battery.
- ❷ Battery is permanently fixed inside battery house.
- ❸ Depending on LED brightness and idle mode setting, battery works from 60 hours to 200 hours.
- ❹ In order to conserve battery life, enable Auto-Off and Idle Mode, dim LED brightness.
- ❺ Charging time for a completely discharged battery is

High Resolution Digital Crane Scale

approximately 12 hours.

- ❶ To obtain maximum service life, battery should be stored between -20°C (-4°F) and +50°C (122°F). Stored batteries should be recharged every three months.
- ❶ During charging, green LED indicates full of power, while red indicates that charging is going on.

10. Troubleshooting

Simple problems can be resolved as below listed solution. If problems still exist, please contact your local representative.

| Symptom | Possible Cause | Suggested Solution |
|--------------------------------------|--------------------------------|-------------------------------------|
| not power-on after On/Off is pressed | discharged / defective battery | check battery and charge |
| | defective On/Off key | press harder and keep pressing 2s |
| | defective power cable | open front panel, check power cable |
| | defective mainboard | contact representative |
| display flashes | discharged battery | charge battery |
| no action taken after key pressed | scale is disturbed | re-plug power cable |
| | defective key | contact representative |
| weight reading not stable | load in motion | keep load stable |
| | weak Anti-Motion | change Anti-Motion level |
| | damped loadcell or | dry loadcell or |

High Resolution Digital Crane Scale

| | | |
|--------------------------------------|---------------------------------------|-------------------------------------|
| | mainboard | mainboard |
| | defective mainboard | contact representative |
| weight reading not zero when no load | discharged battery | charge battery |
| | load-cell stressed too long | hang scale in storage |
| | discharged battery | charge battery |
| large error in weight reading | scale not zeroed before applying load | manual Zero scale before loading |
| | wrong unit | switch to correct unit |
| | scale requires calibration | calibrate scale |
| | defective loadcell or mainboard | contact representative |
| battery can not be recharged | defective charge board | contact representative |
| | defective battery | contact representative |
| short remote controlling distance | discharged / defective remote battery | replace remote controller batteries |

High Resolution Digital Crane Scale

11. Loading Procedures

DO NOT attach oversized interface!

DO NOT push/pull on loaded scale or directly on hook!

DO NOT use multiple attachments!

Use hardware that creates single point attachments.
