- Scales for wet environmental
- Rechargeable battery
- Other capacities (max 250 kg)
- Loadcell and bottom plate in stainless steel
- Case
- AV-200-EC; without pillar

Personal Scale AV-200-EC-P is a rugged and high accuracy digital scale. Full weight is 200 Kg. Stainless steel platforms complete with "slip protection". For highest precision, the platform has a Single Point Loadcell. The accuracy is not dependent on the location of the load on the platform, whether its a small or high load, the temperature of the load, etc. The Scale consists of Weighing Platform, Indicator TI-1200-S, Pillar and adapter.

As an option, the Weighing Indicator can be mounted with a bracket to the wall or could be placed on a table (model AV-200-EC)
