

## WWS “PROFESSIONAL” VEHICLE WEIGHING SYSTEMS

DFKWR indicator; Rack Version includes 4 connectors for link with the platforms, built-in rechargeable battery, case and battery charger. In the WHEEL WEIGHING mode, with the total function, it is possible to print/display:

- the weight of the single platforms
- the sum of any of their combinations
- the total weight of all the platforms (subtotals)

After n weighs it is possible to print/display:

- the number of weighs carried out, the accumulated weight and the sum of the subtotals carried out.

It is possible to carry out TARE operations, to acquire the barycentre, and communicate the weight to a PC.

### FEATURES

- Extended 17-key indicator keyboard
- LCD display with 6 25-mm high contrast digits and with indication of active functions, clearly visible even in poor lighting conditions and with low temperatures
- Rack type metallic case including housing for optional printer.
- Dimensions: 270 x 440 mm
- 4 fitted connectors (up to 8 optionally) for connection to 4 platforms
- 1 connector for connection to PC or radio modem
- Digital calibration and set-up from keyboard
- Instrument management and configuration from PC with DINITOOLS V.3
