Technical Specifications

Reliable Results and High Measurement Precision
Excellent measurement parameters and performance enable applying PM C32 balances in laboratories and various branches of industry.

Radwag MonoBLOCK™, an Innovative Weighing System
The cutting edge technology of the measuring system guarantees stability of repeatability in time, where sd<1, and a significant resistance to ambient conditions.

Weighing Heavy Loads With the Maximum Accuracy
It is possible to work with samples of different weight values, from few grams to several kilograms, wherein the highest measurement accuracy and excellent result repeatability are maintained.

Reliability and Safety
4-point protection system prevents balance overloading, this ensures safety in case too heavy load is applied onto the weighing pan. Robust design allows to operate the device even in the most challenging ambient conditions.

Ease of Use and Maximum Comfort of Operation
5" colour screen enables intuitive operation and easy access to numerous applications and functions. PM C32 program allows screen layout customization.

Automatic Adjustment
Internal adjustment system guarantees the highest accuracy and reliable measurements results.

Touch-Free Operation
Two programmable proximity sensors can be assigned with any function or application. The given function when assigned is both run and operated touch-free.

Numerous Options of Data Management
The instrument enables saving all completed measurements data as complex reports and graphs.
