### RD-953 innerScan® **DUAL** BLUETOOTH BODY COMPOSITION MONITOR

Tanita, the designer, manufacturer & distributor of the world's most accurate, radio wireless body composition scales. Since creating the world's first stand-on body composition monitor in 1992, Tanita Bioelectrical Impedance Analysis (BIA) technology has been used by health and well-being experts around the world.

Tanita has produced the highest standard in fitness and wellness assessment. The RD-953 incorporates the very best **FDA Cleared**, medical grade "Dual Frequency", BIA technology, allowing you to have the most accurate body composition accuracy in the comfort of your home.

#### What is "Dual Frequency"?

Research has shown that using two different bio-electrical impedance frequencies provides essential data of a person's **intracellular** and **extracellular status**. This advanced technology allows greater accuracy when calculating body composition measurements, including muscle quality score.
